

It's a Papercraft Playdate[®]

Playdate is a brand new handheld video game system.

While you (so patiently) wait for it, we thought you might get a kick out of cutting out and assembling this life-size paper version. Keep it on your desk or nightstand, maybe? Plus, you'll get an idea of Playdate's actual size. Learn more at play.date

(Double check you're printing at 100%!
A credit card should be as wide as this outline.)

The Basics

- First, well, you'll need a printer. (We know, we know.)
- When you print, be sure to print at 100% scale.
- Carefully cut all the way around the edges.
- Smaller scissors might work better.
- Fold along the dotted fold lines.
- Then glue the flaps.
- Enjoy!

The Crank

- Fold the "c" tab and glue it to the side with the black circle, or,
- Cut a slit along the dotted line in the black circle and insert the "c" tab into it, or,
- Glue a toothpick to the crank to make it turn, or...
- Come up with a brand new design!

The Screen

How about drawing your own game for the screen?

Hooray!! You're getting a

playdate[®]

**Yours will be ready in 2023. We think
you'll really like it. See you soon!**
